- We have a special focus on using the best technology. With students able to learn both fundamental and advanced computer related skills, whilst utilising the Internet;

- We have ‘whole school staffing’ where we can take advantage of the special skills and abilities of teachers - primary teachers teach secondary classes; secondary teachers teach primary classes;

- Smaller schools such as ours can monitor closely the behaviour of students. We support students at a critical time in their growing up and adopting particular attitudes and values;

- We provide additional competition and other social experiences through our enthusiastic participation in organised inter-school activities, carnivals, zone trials and the growing links with other central schools and the Celtic Community of Schools. In sport, our students have progressed to competing at state level in recent years.

- Our learning environment is very supportive and designed to encourage student to achieve to their full potential. We aim to provide the best equipment, facilities and learning experience possible.

- A merit program encourages and rewards student effort.

- Parental involvement is actively encouraged at ECS. Parents have opportunities to be part of everyday school life.

School Vision Statement
At Emmaville Central School we aim to provide a high quality education in a caring and supportive environment, where students feel safe and empowered, to develop to their potential, and to become effective global citizens and leaders. This will be achieved through effective and collaborative partnerships.
School Motto:

‘Duty First’

Our students are taught about, accepting and implementing the responsibilities and duties they have to themselves, to others in the school and in the community. In particular, our students are being taught to be responsible for their own learning.

- We have an experienced, skilled, caring staff who are committed to assisting students to achieve and succeed;
- We have small-sized classes, but also opportunities to extend students and provide special assistance to others through having combined classes;
- We have an ability to provide unique learning opportunities to students - accelerating some students and providing other with additional assistance in learning fundamental work and skills in literacy and numeracy;

We consider our school strengths to be many and varied, the most important of which are:

- We aim to have a positive learning environment where students are challenged in their learning and parents are engaged and involved in their students education.
- We are a ‘family oriented’ school.
- There is an emphasis on understanding and co-operation throughout all classes with senior students expected to assist junior students;
- Students in the senior school are provided with opportunities to assist and provide special activities for junior students - such as SRC fundraising activities, organising and leading students at our carnivals and assemblies.

- We provide a comprehensive education for Kindergarten through to Year 12 including access to TAFE and T-VET courses. Our Year 11 and Year 12 students have access to the full range of HSC Courses delivered through a flexible distance education module.

- The Year 7 to Year 10 students have access to specialist teachers in the core subjects of English, Mathematics, HSIE, Science, PDHPE as well as a range of electives including: Industrial Technology Wood/Metal, Hospitality, dance, drama and computer studies.
